

PRESS RELEASE

**EfCCNa endorses the
Brisbane Declaration**

October / 2017

WORLD FEDERATION OF CRITICAL CARE NURSES

EfCCNa endorses the Brisbane Declaration

In 2016 WFCCN congress in Brisbane, Australia, the working group presented the Brisbane Declaration: *Culturally Sensitive Critical Care Nursing* to be adopted as an international position statement for all the WFCCN Association members. The position statement included ten recommendations to ensure the provision of culturally sensitive critical care nursing worldwide.

The WFCCN is happy to announce that on the 26th October 2017, the European Federation of Critical Nurses associations have officially endorsed the Brisbane Declaration and asked members countries to translate this in their native languages and publish these translation in their website.

Following the EfCCNa endorsement, the Brisbane Declaration has been translated in Polish language (Deklaracja) on the 30th October 2017. This translation is available in the EfCCNa and WFCCN websites.

WFCCN congratulates the EfCCNa and the Polish Critical Care Nurses Association for their efforts in adopting and disseminating the Brisbane Declaration.
